The main features:

Small-sized power supply for LED lighting, including diodes, strips, LED strips, bulbs, modules or hoses. Equipped with handles allowing to fix it to the wall or a ceiling. It features constant output voltage regardless of the load. High quality capacitors guarantee long service lifetime of the device. It is not suitable for use in areas of increased humidity. The device can be installed in a connection box. It is equipped with overload protection and surge protection.

P

RATED POWER:
6W

U_{IN}

INPUT VOLTAGE:
230V~, 50Hz

PROTECTION
RATING:
IP20

INSTALLATION:
in the junction
box

Technical specifications:

General Information

Output voltage:	12V DC
Output current:	0,5A
Rated power:	6W
Input voltage:	230V~, 50Hz
Protection rating:	IP20
Installation:	in the junction box
Dimensions (width x height x depth [mm]):	55 / 29,5 / 22mm
